* High Housing Burden is defined as spending more than 30% of income on housing costs.

** Data is compiled from 2000 US Census tracts, rather than being directly from the Supervisory Districts. Tracts are placed in the respective Supervisorial District in which their centroid lies. This method closely approximates the supervisorial district data and yields a margin of error less than 10%. http://www.sfgov.org/site/bdsupvrs_page.asp?id=4741
